

CENTRE
FOR MARITIME TECHNOLOGY TRANSFER

Online repository for scientific and academic journals

INNOVATIVE NATURE OF THE SOFTWARE

Web-based software for sharing full-text articles published in scientific and academic journals, including publication and exportation of article metadata.

BENEFITS FOR INDUSTRY

- incorporates a CMS (Content Management System);
- provides a system for choice of browsing criteria;
- features advanced content-search tools;
- includes data listing menu and field-description availability in two languages, PL and ENG.

INTENDED USERS

- research units;
- institutions of higher education;
- IT industry, for publication and dissemination of research results on the Internet and through local networks.
